

NUTRICIA CHOICE ENTERAL NURSING SERVICE

Nutricia Choice aims to provide the best possible patient care, delivered with compassion and clinical skill.

The Nutricia Choice Nurses are Enteral Nurse Specialists and they will provide you with the training you need to make sure that you (and your family or carer) feel confident to manage your pump (if you have one) and your feeding tube once you leave hospital.

Whilst you are in hospital a Nutricia Choice Enteral Nurse Specialist will contact you to arrange a training visit. The Nutricia Choice Enteral Nurse Specialist will tailor the training to your needs depending on the type of tube and feeding regime your healthcare professional has recommended.

On your first visit the Nutricia Choice Enteral Nurse Specialist will deliver your feeding pump so you have it ready to use as soon as you need it. They will also complete a registration form with you.

If you have chosen the Comprehensive Nutricia Choice nursing package, the Nutricia Choice Enteral Nurse Specialist will arrange and provide additional follow up support through visits and phone calls once you are discharged from hospital. This support will be for the first 28 days however further Nutricia Choice support packages can be purchased, if required.

As part of the Comprehensive package, Nutricia Choice Enteral Nurse Specialists are available between the hours of 9:00 am until 5:00 pm, Monday to Friday, and 9:00 am until 1:00 pm on Saturdays* Please contact the Emergency Support Advice Line outside of these hours if you require urgent feeding tube or pump advice. These important contact numbers will be provided by our Nutricia Choice Enteral Nurse Specialist on your first training visit.

When you return home, your Nutricia Choice Enteral Nurse Specialist will provide a "Return Home" information pack with information for your local healthcare professional.

*This may vary depending upon your location in the UK
